Anamika Raj

AI Engineering Intern | Python | LLMs | RAG
Chennai, India
8207810431 | anamikarajwork@gmail.com | LinkedIn | GitHub | LeetCode

SUMMARY

AI Engineer with strong proficiency in **Python, backend development, and LLM-powered systems**, experienced in designing and implementing **RAG pipelines, API-driven architectures, and scalable AI applications**. Skilled in integrating **LLM APIs**, optimizing data workflows, and building efficient backend services. Demonstrates solid expertise in **data structures, system design, and performance optimization**, with a focus on delivering reliable and production-ready solutions.

SKILLS

Languages: Python, C++, Java, JavaScript, SQL
AI/ML: LLMs, RAG (chunking, embeddings, retrieval), Prompt Engineering, OpenAI APIs
Backend: FastAPI (familiar), Flask, Node.js, REST APIs, Async Programming
Databases: MySQL, PostgreSQL, MongoDB
Concepts: Threading, Multiprocessing, Caching (Redis, in-memory), System Design
Tools: AWS (EC2, S3), Docker, Git

EXPERIENCE

Launchpad Program Participant – AI & Data Mar 2026 – Present
PwC *Remote*
- Selected among **top 5%**; built **LLM-driven workflows** for enterprise use cases using Python and prompt engineering.
- Delivered **3+ AI case solutions** involving data pipelines and automation, improving process efficiency by **30%**.

Bridge Program Trainee (Selected) Mar 2026 – Present
Citibank *Chennai*
- Selected among **49 students**; completed coding assessments and system design training.

Cloud Virtual Intern Apr 2025 – Jun 2025
AWS Academy *Remote*
- Deployed **3 applications** on AWS EC2 and S3, improving scalability by **40%**.
- Configured IAM policies securing **5+ APIs**, reducing unauthorized access risks.

PROJECTS

CareerCraft – AI Career Platform
Python, Flask, React, LLMs, RAG
- Built **RAG-based system** using chunking and embeddings, delivering recommendations to **100+ users**.
- Created FastAPI-based endpoints with async request handling for scalable API performance
- Integrated **OpenAI APIs** for parsing and summarization, reducing onboarding time by **60%**.

Sora – AI Job Portal
Python, Node.js, MongoDB
- Developed backend handling **100+ concurrent users** with optimized database queries.
- Built recommendation engine for **1000+ jobs**, improving relevance by **25%**.

CloudShelf – E-Library
Flask, MySQL, AWS
- Engineered scalable system managing **500+ books** with **99.9% uptime**.
- Implemented authentication and SQL optimization for **200+ users**.

EDUCATION

SRM Institute of Science and Technology 2023 – 2027
B.Tech CSE (Big Data Analytics) *CGPA: 9.72*

Banasthali Vidyapeeth 2021 – 2022
Class XII *94.33%*

CERTIFICATIONS

AWS AI Practitioner | AWS Cloud Practitioner | AWS Cloud Architect
Prompt Design in Vertex AI | DBMS (Scaler)
