ANAMIKA RAJ

Software Engineer | Chennai, India
8207810431 | anamikarajwork@gmail.com | LinkedIn | GitHub | LeetCode

SUMMARY

Software Engineer with strong expertise in OOP, full-stack development, and REST APIs. Proficient in Java and C++ with experience building scalable applications and integrating frontend-backend systems. Familiar with modern web technologies, microservices, with a strong interest in visualization and simulation-based systems.

TECHNICAL SKILLS

Languages: Java, C++, Python, JavaScript, SQL

Frontend: React.js, HTML, CSS, Bootstrap

Backend: Node.js, Flask, REST APIs, Microservices

Web: JSON, AJAX, Web Services, MVC (ASP.NET Basics)

Database: MySQL, PostgreSQL

Cloud: AWS (EC2, S3), Docker

Core: DSA, OOP, DBMS, OS, CN

EXPERIENCE

Launchpad Program – PwC
Mar 2026 – Present
Data Analytics Track — *Remote*

- Chosen among top 5% of participants for a competitive program focused on scalable data-driven systems.
- Processed datasets of 10K+ records improving decision-making efficiency in project workflows.

Bridge Program Trainee – Citibank
Mar 2026 – Present
CITI Bridge Program — *Chennai*

- Chosen among 49 students for a software engineering program focused on enterprise systems and backend architecture.
- Executed API-based workflows and system design concepts improving application scalability and reducing response time by 20%.

Cloud Intern – AWS Academy
Apr 2025 – Jun 2025
AICTE EduSkills — *Remote*

- Deployed 3+ applications on AWS EC2 and S3 ensuring scalability and high availability.
- Built and integrated REST APIs reducing backend latency and improving system communication efficiency.

PROJECTS

Sora – AI Job Portal
React, Node.js, Python

- Built a full-stack platform supporting 100+ users with real-time job workflows.
- Engineered REST APIs managing 1,000+ records with optimized backend performance.
- Architected modular system ensuring seamless frontend-backend communication.

CareerCraft – AI Career Platform
Flask, React

- Created an AI-driven platform delivering personalized recommendations across 5+ domains.
- Developed REST APIs for resume parsing and data processing improving system efficiency.
- Integrated responsive UI ensuring smooth user interaction and data flow.

CloudShelf – E-Library
Flask, MySQL, AWS

- Constructed a cloud-based system managing 500+ digital assets with secure access control.
- Built backend services and REST APIs improving data retrieval speed and reliability.
- Enhanced performance through optimized queries and efficient system design.
- Explored visualization techniques for interactive data representation and improved user experience.

EDUCATION

SRM Institute of Science and Technology
2023 – 2027
B.Tech CSE (Big Data Analytics), CGPA: 9.7

Banasthali Vidyapeeth
2021 – 2022
Class XII, 94.3%

CERTIFICATIONS

AWS Cloud Practitioner | AWS AI Practitioner | AWS Cloud Architect | Google Vertex AI | DBMS (Scaler)
