Anamika Raj

Software Engineer
Chennai, India
8207810431 | anamikarajwork@gmail.com | LinkedIn | GitHub | LeetCode

SUMMARY

Software Engineer experienced in developing scalable full-stack and backend applications using Python, JavaScript, React.js, Node.js, and Flask. Strong foundation in Data Structures, Algorithms, Object-Oriented Programming, and RESTful API development with 100+ LeetCode problems solved. Experienced in building cloud-based systems on AWS, backend services, and production-ready web applications.

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Flask, RESTful API Development

Databases: MySQL, PostgreSQL, Firebase

Cloud & DevOps: AWS (EC2, S3, IAM), Docker

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, VS Code, Postman, Jupyter Notebook

Experience

Launchpad Program Participant – Data Analytics Track **Mar 2026 – Present**
PwC (PwC Acceleration Centre) *Remote*

- Selected for a competitive industry program among top students focusing on Python, data engineering, data analytics, and modern data systems.
- Gained hands-on exposure to Generative AI, prompt engineering, and data-driven problem-solving in enterprise environments.

Bridge Program Trainee (Selected) **Mar 2026 – Present**
Citibank – CITI Bridge Program *Chennai, India*

- Selected among 49 students for a technology training program focused on software engineering and financial technology systems.
- Participated in technical workshops, coding assessments, and enterprise system training related to banking technology.

Cloud Virtual Intern (AICTE) **Apr 2025 – Jun 2025**
AWS Academy & EduSkills *Remote*

- Deployed 3 cloud-based applications on AWS EC2 and Amazon S3, improving scalability and availability.
- Configured IAM roles and deployed REST APIs for 3 cloud-based applications on AWS EC2 and S3 improving scalability and system availability.

Projects

Sora – AI Job Portal | React.js, Node.js, Python, MongoDB

- Designed a scalable full-stack job portal supporting 100+ users for job search, job posting, and application management.
- Architected RESTful APIs using Node.js and MongoDB to manage 1000+ job records with optimized database queries.
- Implemented authentication and Python-based AI modules to enhance job recommendation accuracy and search relevance.

CareerCraft – AI Career Guidance Platform | Python, Flask, React.js, Node.js

- Built an AI-powered career guidance platform delivering personalized career and skill recommendations for 100+ users across 5+ career domains.
- Developed Flask-based REST APIs for resume parsing, skill extraction, and recommendation services.
- Designed responsive React.js interface and integrated ATS-friendly resume generation with dynamic PDF templates.

CloudShelf – Cloud-Based E-Library System | Flask, React.js, MySQL, AWS S3

- Built a cloud-based digital library platform enabling storage and management of 500+ digital books.
- Engineered REST APIs, authentication, and role-based access control using Flask and MySQL for secure access.
- Integrated AWS S3 for scalable cloud storage and optimized database queries to improve data retrieval performance.

EDUCATION

SRM Institute of Science and Technology **Jul 2023 – May 2027**
B.Tech Computer Science and Engineering (Big Data Analytics) *CGPA: 9.725/10*

Banasthali Vidyapeeth **Jul 2021 – May 2022**
Higher Secondary School (Class XII) - MPC *Percentage: 94.33%*

CERTIFICATIONS

AWS Cloud Architect – AWS Academy

AWS Cloud Practitioner

AWS AI Practitioner

Prompt Design in Vertex AI – Google Cloud

DBMS Certification – Scaler
