www.linkedin.com/in/anamika-raj-88062728a

Location : Chennai, India
Target Role: Data Analyst Intern | Software Developer | AI/ML Intern
Additional projects available on GitHub: https://github.com/AnamikaRaj11

Aspiring Data Analyst and Computer Science undergraduate (B.Tech in Big Data Analytics) with hands-on experience in Data Analysis, Machine Learning, and Cloud Computing. Proficient in Python, SQL, AWS, and full-stack development (Flask, React.js). Skilled in building data-driven applications, developing scalable cloud solutions, and leveraging modern AI tools. Seeking internship/full-time opportunities to apply analytical and problem-solving skills in real-world projects.

CERTIFICATIONS

- AWS Cloud Architect (AWS Academy)
- Prompt Design in Vertex AI – Google
- Gemini/Imagen AI Applications – Google
- DBMS
- C++ & DSA – HackerRank, CodeChef

SKILLS

- **Programming:** Python, Java, C++, SQL, JavaScript
- **Web Development:** HTML, CSS, Flask, React.js
- **Data Analytics/AI:** Pandas, NumPy, Scikit-learn, Gemini, Vertex AI
- **Databases:** MySQL, Firebase, Oracle
- **Cloud:** AWS, Google Cloud Platform (GCP)
- **Tools:** Git, Jupyter Notebook, VS Code
- **Soft Skills:** Problem-solving, Communication, Teamwork
- **Data Visualization:** Power BI, Tableau (Basic)

PROJECTS

CloudShelf – Flask, MySQL, AWS S3
- Developed a cloud-based e-library with categorized book storage (PDF), user dashboard, login/authentication, and real-time wishlist. Integrated cloud storage with AWS S3 and built an intuitive frontend with Flask.

EmpowerWeb+ – Firebase, Web Speech API
- Bilingual women empowerment platform featuring peer support, health/safety guidance, and a voice-enabled AI chatbot. Implemented Firebase Firestore for efficient and scalable data management and Web Speech API for voice interaction.

Hospital Management System:
- Role-based system for managing patients, doctors, and billing. (Java, MySQL)

Medicine Recommender:
- Symptom-based medicine suggestion tool. (Python)

WORK EXPERIENCE

Data Analyst Intern – Cognifyz Technologies | Remote
- Performed real-time data analysis and developed ML models using Python.
- Conducted EDA, data cleaning, and preprocessing on datasets with 100K+ entries using Pandas and NumPy.
- Applied supervised learning techniques and improved model accuracy by 15%.

Cloud Intern – AWS Academy | Virtual | Apr – Jun 2025
- Deployed cloud-native applications using AWS EC2 and S3.
- Gained proficiency in cloud architecture, IAM, scalable infrastructure, and monitoring tools.
- Completed 10-week project-based internship focusing on real-world cloud deployment scenarios.

EDUCATION

B.Tech in Computer Science and Engineering (Big Data Analytics)
SRM Institute of Science and Technology, Kattankulathur
CGPA: 9.76 · Graduation: 2027
