ANAMIKA RAJ

Software Engineer
8207810431 | anamikarajwork@gmail.com | LinkedIn | GitHub

SUMMARY

Software Engineer with hands-on experience in SQL, REST APIs, and application development. Skilled in data handling, problem-solving, and working with technologies like C++, Python, and databases. Experienced in building efficient systems and applying data-driven approaches to real-world problems.

TECHNICAL SKILLS

Languages: C++, Python, SQL, JavaScript

Data & Analytics: Data Analysis, Data Cleaning, Visualization

Backend: Node.js, Flask, REST APIs

Frontend: React.js, HTML, CSS

Database: MySQL, MongoDB

Cloud: AWS (EC2, S3), Docker

Core: Database Management System, Object-Oriented Programming

EXPERIENCE

Launchpad Program – PwC
Mar 2026 – Present

Data Analytics Trainee — *Remote*

- Currently undergoing training in Python fundamentals, AI, modern data systems, and data engineering concepts.
- Completed 2 micro-certifications and participated in multiple masterclasses focused on real-world data analytics use cases.

Bridge Program Trainee – Citibank
Mar 2026

Enterprise Systems Exposure — *Chennai*

- Gained exposure to corporate financial systems, platform engineering, and AI applications in finance.
- Participated in a prompt engineering challenge involving dataset-based problem solving and AI-driven outputs.

Cloud Intern – AWS Academy
Apr 2025 – Jun 2025

AICTE EduSkills — *Remote*

- Built and deployed applications on AWS using EC2, S3, and IAM for secure and scalable solutions.
- Developed an AI-based Chef Assistant system for generating multi-cuisine recipes and managing data storage using S3.

PROJECTS

CloudShelf – E-Library
Flask, MySQL, AWS

- Developed a cloud-based e-library system to store and manage digital books.
- Implemented features for searching, categorizing, and accessing books efficiently using SQL.

Sora – AI Job Portal
React, Node.js

- Built a job portal platform to connect users with job opportunities.
- Developed REST APIs and integrated frontend to manage user data and job listings.

CareerCraft – AI Career Platform
Flask, React

- Created a platform to provide career guidance and recommendations based on user input.
- Implemented data processing and basic recommendation logic for personalized results.

EDUCATION

SRM Institute of Science and Technology
2023 – 2027

B.Tech CSE (Big Data Analytics), CGPA: 9.7

Banasthali Vidyapeeth
2021 – 2022

Class XII, 94.3%

CERTIFICATIONS

- AWS Cloud Practitioner
- AWS AI Practitioner
- DBMS (Scaler)
